

Tales of Entropy

Errata

- Pg 30 (paperback), Pg 31 (electronic PDF) — Calculating Fold Limit: Fold Limits for the example characters are miscalculated. The correct values are: Viima 3, Hårik 3, Erland 3 and Kipuna 4.
- Pg 74 (paperback), Pg 77 (electronic PDF) — Recap of the Conflict Procedure: The procedure starts with a bullet describing the choice of a Narrator. This is an error and the whole bullet should be omitted. The real recap starts from the conflict sides declaring goals.
